

The Third Alumni Meeting at the College of Dentistry

The **Alumni Relations Unit** at the College of Dentistry successfully organized its **Third Alumni Meeting** on **May 30, 2024**, coinciding with the Scientific Research Day for internship students. This event, hosted at the university theatre and under the patronage of His Excellency the University President, aimed to engage alumni, foster professional learning, and promote the unit's activities.

Event Highlights

1. **Duration:** Five hours
2. **Activities:**
 - An **informational booth** set up by the Alumni Relations Unit during the Scientific Research Day, where His Excellency the University President visited and reviewed the unit's initiatives.
 - Two **Continuing Medical Education (CME)** lectures:
 1. **Dr. Faisal Al-Shehri**, Assistant Professor in the Department of Restorative Dentistry, presented a lecture titled *"Tooth Discoloration Problems and Treatment Approaches."*
 2. **Dr. Nada Al-Amoudi** delivered a lecture on the latest advancements in dentistry.
 - A **networking session** for alumni, including refreshments provided by the Dean's Office.
 - Distribution of certificates of attendance to participants.

Mode of Delivery

- In-Person

Participating Entities

- **Organizers:** Alumni Relations Unit / Internship Committee
- **Collaborators:**
 - Internship Committee
 - Department of Restorative Dentistry
- **Event Type**

Open meeting held at the university theatre

Conclusion

The Third Alumni Meeting provided an excellent platform for professional development and networking. The CME lectures offered insights into critical dental topics, such as tooth discoloration and emerging trends in the field. The informational booth and networking session further strengthened ties between the alumni, students, and faculty, aligning with the college's commitment to lifelong learning and alumni engagement.
